☎ +380965815349

Creative and self-starting Front-End Developer with 4+ years of programming experience. Highly skilled in React/Redux and have a deep understanding of OOP and Design Patterns. Interested in becoming part of a friendly team that wants to grow and create great applications.

Skills

JavaScript, TypeScript, React, Redux, Redux-thunk, HTML5, CSS3, SASS, BEM, Node.js, Express.js, Mongoose, AJAX, REST API, WebSockets, OOP, Design Patterns, Gulp, Webpack, C#/.NET, Git, Figma, Adobe Photoshop

Projects

◆ PracticeChat [under development]

Online chat for learning English. A real-world full-stack project with REST API and WebSockets that uses JWT-authentication. The Front-End part is written by using React Hooks, Redux and Redux Middlewares.

React

Redux

Node.js

Express.js

MongoDB

Socket.IO

SASS

Webpack

◆ Sticksy.js [2019 – present]

Open-Source library for making a “sticky widget” behavior. Here you can see my algorithmic and programming skills in vanilla JavaScript.

◆ FontNinja [2017 – 2018]

Font-organizer for Adobe After Effects with search, filter, sorting, tagging system, real-time preview, virtual-scrolling, and many other features. Used Inversion of Control to build for different environments.

TypeScript

Vue

Vuex

Inversify.js

SASS

Adobe CEP

Webpack

Education

Master of Computer Science,
Donetsk National University,
Vinnytsia, 2017 – 2019

Interests

Machine Learning, UX/UI Design, Graphic Design, Product Design, Branding, Music production.

Languages

English – Pre-Intermediate
